

First Card add-on: Extended Payment

Make use of extra time to pay with Extended Payment terms

When you add the Extended Payment option to your First Card services, your payments will be due within 30 days of each invoice date instead of the usual 15 days. This will provide you with a longer 45-day payment period (on average) instead of the usual 30-day period. Benefits to your company include:

Flexibility to adjust First Card to match your processes

You can make use of extra time to process your company's payments with a longer interest-free grace period. More time to pay also reduces the chance of incurring late fees.

Greater control over cash flow

The Extended Payment option provides greater control when you need to meet expenses while waiting for outstanding receivables. This can be especially helpful when serving customers who are slow to pay.
